

Majors Rules

Revised: 4/8/2024

Games

1. Games shall consist of 6 innings unless one team is ahead by 15 runs after 4 innings or 10 runs after 5 innings at which point the game will be called. No new inning shall start after 1:45 into the game, however, if an inning is started, it must be completed. **Time is at last innings recorded 3rd out. For example, bottom of 4th inning, 3rd out occurs at 1:44, then the 5th inning is allowed to be played.**
2. Three outs per inning. **Maximum limit of 10-runs per inning. Except last "unlimited run" inning or 6th inning. *(provisional rule 2024).**
3. During the regular season, games can end in a tie. Tournament games must have a winner - NO ties. If a game is called for any reason (weather, daylight, etc.) in the top of an inning or during the bottom half of an inning in which the home team does not have the lead, the game will revert back to the last full inning played and that inning ending score. 4 innings played will be considered a complete game. (3.5 innings where the home team is ahead counts as 4 full innings.) Tournament games started, but called due to weather, daylight, etc. prior to meeting complete game standards outlined above must resume from the exact point the game was called to have a winner no matter of the time.
4. Suspended games will resume from the point of suspension. The reconvened game shall hold to the same batting order. If a player that was missing in the original game shows for the reconvened game, he/she shall be added to the bottom of the batting order. If a player from the original game cannot make the reconvened game the batting order shall adjust accordingly. (Ex: if the number 6 batter is missing, then the number 7 batter now becomes the number 6 and so on and so forth).
5. No jewelry is to be worn by any player during a game.
6. No mirrored sunglasses or all white sleeves are allowed to be worn by pitchers during games.

8. All players moving up from minors to majors will to enter the draft.
9. Game start time shall be written in the home teams score book and be the official time. If the time was found to have not been documented, then the scheduled start time shall serve as the documented starttime.

 - b. If a batter is caught at any time in the field of play with an illegal bat, the batter is out. If happens more than once, the game is forfeited by the offending team. If an illegal bat is determined after a play is completed but before the next batter, all runners will revert back to original positions prior to at bat and batter is out.
1. A continuous batting order will be followed. **Bat every kid present at game that is on roster; remains same order entire game.**
2. If a team bats a player out of order, and it is caught after the first pitch and during that inning, an out must be taken for that batter.
3. If, in the umpire's judgement, a batter throws a bat, a team warning will be given to his team. If, after the warning has been given, any player on the team that received the warning does it again, the batter will be called out and no runners may advance. Each team will be given a warning and it should be noted in the home team scorebook.
4. All players must remain in the dugout or on the bench with a fence overhead except for on-deck batter. Unless otherwise stated by your league, all on deck batters must be either out of play or behind the batters back.

9. Batters may not wear chrome helmets.

Fielding

1. Infield fly rule is in effect. (There must be less than two outs with runners on 1st and 2nd or bases loaded. It's the umpire's decision as to if a player made a reasonable attempt to catch the ball)
2. Each team needs 8 players minimum to start game. A team starting with 8 players will receive one out at every at bat for the 9th missing player. If for a reason a team drops below 8 players in the course of the game, that team will take two outs. The second out will come where the lost player would have batted.
3. If a team needs to call a player up the called-up player cannot start over a regular member of the team, and they cannot be used as a pitcher. Teams can only call up enough players to field a 10-man roster. **Cannot start over original team members.**

8. **At bases and home plate both the defender and runner entitled to half of plate/base. NO blocking of plate/base unless have the ball.**
9. **Safety bases are highly recommended (not required) to be used whenever possible. First base fielder and runner may use either base to make play. In most situations the runner should utilize the "outside", orange portion and the fielder uses "inside", white portion to avoid unnecessary collisions /contact.**

Pitching

1. The mound should be 50 feet.
2. Pitchers will follow MLB Pitch Smart Guidelines for 11–12-year-olds throughout the season following the chart below. To ensure the daily maximum pitch count is not reached, pitchers will not face a new batter after 75 pitches have been thrown. Both scorekeepers need to track how many pitches were thrown by each pitcher and verify pitch counts between innings. If there is a discrepancy between pitch count, the umpire will determine which count will be used. **Pitcher's "rest" period is based upon calendar days NOT hours. Example: Pitch 11am on Saturday 40 pitches he is eligible to pitch again Tuesday, NOT Monday at 6pm game.**

| Age | Daily Pitch Max | 0 Days Rest | 1 Days Rest | 2 Days Rest | 3 Days Rest | 4 Days Rest |
